

Narongsak Buangam

Industrial IoT & Automation Engineer

pakiyhm@gmail.com | pakiyhm.github.io | Rayong / Bangkok, TH

Industrial IoT & IT/OT integration engineer connecting shop-floor machines, metrology instruments and sensors to enterprise software. Hands-on with plant telemetry, quality-data integration, network segregation and zero-touch device management in 24/7 manufacturing.

Experience

NTT DATA (onsite at Brembo Thailand) - Rayong
IT Infrastructure & Automation Engineer | Feb 2026 - Present

- Supported an energy-monitoring IoT project: live logging of 37 tags plus a meter-data logging guide.
- Connected Zeiss CMM measurement data to IQS/QDAS quality systems.
- Isolated external CCTV access through a cellular SIM gateway, separate from the core plant LAN.
- Built Scan-to-SMB failover routes for cloud-scan outages, keeping production documents flowing.
- Installed IoT environmental sensors in the server room with an overseas engineering team.
- Enrolled 20 phones and 3 eMaint CMMS tablets in Intune via Samsung Knox (KME) zero-touch.
- Selected the vendor and, solo, deployed 10+ Teams IP / wireless phones and an IVR.
- Manage ~30 laptops and ~20 meeting-room / digital-signage devices.
- Resolved L1-L3 plant IT/OT incidents (switch logs, LAN faults, AD/GPO, Dynamics AX) with teams in India, Italy and China.

Toyota Tsusho Systems (TTST) - Bangkok
Global IT Monitoring & Helpdesk Engineer | 2024 - 2025

- Handled SLA-driven incidents for global teams with structured escalation.
- Developed automated email reporting and data-parsing tools for infrastructure monitoring.

CPF (Charoen Pokphand Foods) - Central region
Management Trainee | 2024

- Improved production processes with Excel automation, analytics and bots.
- Turned production users' problems into digital solutions.

Key Technical Projects

Quiet Health (prototype): bedside monitor with ESP32-C6, 60GHz mmWave radar and thermal camera; MQTT to Cloudflare Workers with automated alerts.

YOODEE POS: offline-first POS (React, Vite, IndexedDB) with Google Drive backup and inventory webhooks.

IT-AMS: PHP/MySQL IT asset tracker with 2D barcode search, handover workflow and audit-ready export.

Education

Ubon Ratchathani University | 2024
B.Sc. Information & Communication Technology (GPA 3.71)

Detudom Technical College | 2020
High Vocational Certificate, Business Computer (GPA 3.97)

Skills & Tech Stacks

IoT & Embedded
ESP32 / ESP8266, MQTT, Modbus TCP/RTU, C/C++, PlatformIO

Industrial IT & OT
Zeiss CMM to QDAS/IQS, Kepware / OPC UA, plant telemetry, segmented factory LAN

Devices & Identity
Intune, Knox KME, Entra ID, AD/GPO, SMB storage

Automation & Software
Python, SQL, n8n, Power Automate, React, TypeScript, Laravel, Node.js

ERP
Dynamics AX 2012, Business Central (support)

Achievements

1st Place National RRR Award - 2019

1st Place Research to Market (R2M) - 2023

2nd Place Thailand Innovator Award - 2019

Student Royal Award - 2020

Certifications

Power Platform Fundamentals
Microsoft / Coursera | Aug 2026

Technical Support Fundamentals
Google | Jul 2026

Digital Marketing & Analytics
depa | Sep 2025
